NOW A . . . 16 INCH

DIAMALLOY

GROOVE-JOINT PLIER

The handiest tool imaginable for big fittings, conduit and pipe. Gets into places impossible to reach with a pipe wrench yet weighs only one-third as much. Jaws open to 4¼ inches. Forged from tough tool steel, beautifully nickel chrome plated. Oil-proof plastic dipped and bonded handles if desired. Overall length 16 inches. Weight per dozen 29 lbs. 4 oz.

The DIAMALLOY Groove-Joint Line

Shown actual size, gripping 2-inch pipe union.

The letter "P" in the stock number indicates plastic handles.
